## **Technical Project Manager | Frontend Developer**

10+ years Project Management Professional with a Passion for Frontend Development and Team Collaboration

---

### **Professional Experience**

#### **NFT Virtual Internship | Remote | 2026**

- Developed responsive React.js frontend components for an NFT display platform utilizing Firebase Authentication and Firestore database, serving 1000+ digital assets.
- Integrated RESTful APIs using Axios to retrieve NFT metadata and digital assets, achieving 95% successful request rate and sub-2 second load times.
- Implemented a user authentication system using Firebase Authentication, resulting in 500+ registered users and secure data management.
- Built and maintained 15+ reusable React components using JavaScript ES6+, Redux for state management, and Material-UI for consistent styling.
- Deployed Firebase Cloud Functions to handle backend operations, reducing server response time by 30% for NFT metadata retrieval.
- Created mobile-responsive layouts using CSS Flexbox and Grid, ensuring consistent display across desktop, tablet, and mobile devices with 98% compatibility.
- Collaborated with a 3-person development team using Git version control and Agile methodologies, completing 40+ JIRA tickets in a 3-month development cycle.

#### **Frontend Developer Independent Projects | Remote | 2025 – Present**

- Built responsive web interfaces using HTML, CSS, JavaScript, and React.
- Developed reusable UI components and integrated REST APIs for dynamic data functionality.
- Deployed applications using Vercel, optimizing performance and user experience.

#### **Technical Project Manager Various Companies | Dallas, TX | 2018 – 2024**

- Led cross-functional teams to deliver high-value projects, ensuring alignment with business goals.
- Managed budgets, timelines, and stakeholder communication to facilitate project success.
- Improved processes, enhancing operational efficiency and accelerating delivery timelines.

---

### **Projects**

#### **Interactive Demographics Dashboard**

- Developed a responsive dashboard with dynamic data visualization using React.
- Focused on accessibility and optimized UI for mobile and desktop experiences.

#### **Animated UI Component Library**

- Created reusable components, enhancing the development process for future projects.
- Implemented smooth animations and optimized performance for better user engagement.

#### **Developer Portfolio Website**

- Designed and deployed a personal portfolio showcasing technical projects and skills.
- Utilized modern design principles to enhance user experience and navigation.

---

### **Technical Skills**

- **Languages:** JavaScript, HTML5, CSS3, TypeScript
- **Frameworks/Libraries:** React, Next.js
- **Tools/Platforms:** Git, GitHub, Vercel, VS Code
- **Development Concepts:** Responsive Design, REST API Integration, UI/UX Implementation

---

### **Education**

**Frontend Simplified Institute** *Software Engineering Certificate* | 2026

**IAP Career College** *Project Management Certification (In Progress)* | 2023

**Collin College** *Business Management & Administration (Experience equivalent)* | 2004
